Forecast for Saturday 01 Oct 2022

Weather: Windy with clear periods and passing showers during the early hours. Thereafter, sunny spells and a chance of showers during the day but also some lengthy dry periods. Any showers may briefly be quite heavy, but they will blow through quickly on the brisk winds. A chance of longer periods of rain developing by the evening.

Chance of cloud-free hill tops above 600m: 80%.

Low cloud and visibility: Patches of cloud above 800m at times during the day, but even the highest summits will have excellent views intermittently. Superb visibility with excellent air clarity and distant hills and landmarks clear to see. Sudden deteriorations as showers pass through. Locally very poor within cloud/fog.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Strong and blustery winds throughout the day with the chance of some gusts exceeding those values in the table above by 10-15 mph, especially on the highest summits.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Fri 30 Sep 2022	4.2mm	10.4mm	11.2mm

Forecast for Sunday 02 Oct 2022

Weather: Overnight rain may linger to give a damp start to the day, but generally becoming dry and bright by early afternoon with sunny periods during the afternoon. Lighter winds than of late.

Maximum wind: Westerly 15-20 mph gusting 25 mph first thing, soon easing to north-westerly 10-15 mph.

Chance of cloud-free hill tops above 600m: 40% becoming 80% by midday.

Low cloud and visibility: Some uncertainty but a risk of periods of cloud above 500-600m at first. This likely clearing to leave most summits free of cloud. Visibility becoming superb with excellent air clarity and distant hills and landmarks clear to see. Locally poor at first in rain and very poor within cloud/fog.

Temperature: **Valleys:** Plus 7 Celsius, becoming plus 16 Celsius.
At 600m: Plus 7 Celsius, becoming plus 12 Celsius.
Freezing level: Above the summits.
